

# Covenant Learning center

**Covenant United Methodist Church**

**15515 N Gleneden , Spokane 99208**

The Covenant Learning Center is a community outreach program that provides affordable summer learning experiences for students entering grades 1-12. It supports children who face difficulties in vocabulary, reading, spelling, writing, or math due to mild learning disabilities, special education needs, English language acquisition, below-grade-level achievement, or challenges with motivation and self-regulation. A certified special education teacher leads the program, overseeing classroom activities and mentoring instructors. Instruction is grounded in direct teaching methods and a multi-sensory approach tailored to individual learning needs. Students are grouped by similar skill levels, with flexible groupings that allow for movement as each child progresses and grows.
